Word comes from Kearney that immediately after the appointment of Rev. Mathison as head of the Kearney Military academy an indignation meeting was held by the people of Kearney. They did not so much oppose Mr. Mathison as they wanted their own man again put at the head. They allege that the North Platte men who attended went as plugs to assist the bishop in removing the present head and putting in Mr. Mathison.

Campbell's old home ranch. The water in this lake is as clear as crystal and Mr. Maryott is of the opinion that it is just the place for these two species.—Garden County News.

Fat Salesmen in Base Ball.

A movement is on foot in the city to organize a baseball team among the fat traveling salesman out of this city. W. J. Tiley, the genial Yeomen manager, is fostering the movement and he expects to have a good team in the field shortly.

There are quite a number of commercial men traveling out of this city who are eligible to membership on the team and owing to their strenuous life they are forced to lead they have decided that something in the nature of wholesome recreation would be very welcome and fit them to better meet the vicissitudes of life. They have therefore adopted this method of building muscle and stimulating their selling energy. The movement will undoubtedly become popular.

Many Special Trains.

Up to the first of April, the Union Pacific had scheduled 137 special trains that will, during the summer months, go to California points carrying exposition visitors. A majority of these trains will pass through North Platte; a few of the trains, however, are routed by way of Kansas City. Most of these trains are scheduled to move between May 10th and September 1st. The passenger department of the road is working upon fully as many more special trains that different organizations are aiming to use in going to the exposition. In order to handle this greatly increased business, and give the highest character of service to exposition travelers, the Union Pacific has spent in the last twelve months, over \$2,000,000 for new equipment; the largest part of this equipment has been already delivered and is going into service as needed. As a result of the heavy purchases of equipment, the Union Pacific is in a position so that it can run eleven sections of each of its ten through trains, duplicating the equipment of each and every train in every particular. The company has sufficient equipment that if it desires to, it could start out for the Pacific coast, one hundred and twenty passenger trains in a single day without interfering with the regular service of regular trains on the line.

Cadets to go to Gothenburg May 27th.

The date of the annual cadet encampment of the high school has been set for the week beginning May 27th and a large number of the boys are planning to go. It is estimated that sixty or more boys will go this year. They will be accompanied by Principal M. M. Rodenbaugh. The schools will close May 26th and the cadets leave the following day. The boys went to Gothenburg last year and enjoyed their trip very much. This year they received an especial invitation to return and they accepted.

Garrison May Resign.

A Washington letter says: Those who are really conversant with the inner life of President Wilson's official family are convinced that the first break in his cabinet will come with the resignation of Lindley M. Garrison, secretary of war, and that his resignation is close at hand. Mr. Garrison, who bids fair to go down in history as by far the ablest member of the Wilson administration, although too loyal to utter a word of criticism, is known by his intimates to have differed radically with many of the most important policies of the administration, but time and again to have been outvoted at the cabinet table by Messrs. Bryan, Daniels et al.

Two men giving their names as Green Warren and Moses Warren were arrested Friday afternoon by Union Pacific Officer Weidman on the charge of trespassing. They were taken to the county jail where they spent the night and appeared Saturday morning before Justice Miltonberger and received the usual sentence. The two men were attempting to board a passenger train when arrested. The officer tried to persuade them to purchase tickets and they refused to do so. They claim to be from Kentucky and have been sojourning on the west coast. At present they are attempting to get back to their homes.

Charges of insanity were filed in the district clerk's office Saturday Raklos Stathos, a Greek, by his brother, George Stathos.

Mother Dog Adopts Pig.

Recently a bright little female Fox Terrier, belonging to John Walston, a farmer living on the Merritt ranch, six miles north of Lexington, gave birth to a single puppy. In the course of a few days the puppy died and its mother was, apparently, inconsolable over the loss of her offspring. A little, wee orphan piglet but a few days old was on the place and Mrs. Walston determined to try an experiment. She placed the little pig with the Fox Terrier. At once the mother dog exhibited the greatest care and solicitude for the little pig, nursing it as she would her own offspring and guarding and caring for it with the utmost fidelity. It is a rather strange case and those who have seen the little dog taking care of the little pig wonder what will happen when the pig gets older and larger.—Lexington Pioneer.
